Objective

Innovative and detail-oriented Computer Science graduate with a passion for developing scalable applications and improving software efficiency. Seeking a position as a Software Developer to leverage my skills in programming and problem-solving.

Education

Bachelor of Science in Computer Science
University of California, Berkeley
Graduated May 2022

Technical Skills

Languages: Python, Java, C++, SQL
Frameworks/Tools: React, Node.js, Docker, Kubernetes
Systems: Linux, Windows

Professional Experience

- **Software Developer Intern, Tech Solutions Inc., San Francisco, CA (June 2021 - August 2021)**
  Developed and optimized API endpoints using Node.js, improving data retrieval speed by 30%.
  Collaborated on a team that implemented a real-time communication feature in an existing app, enhancing user engagement.
  Assisted in deploying applications using Docker, improving deployment efficiency.

Projects

- **Smart Home System (Personal Project)**
  Designed and implemented a smart home management system using IoT devices, controlled via a custom-built app in React.
  Integrated third-party APIs for weather and home security features.

- **University Enrollment Database System (Academic Project)**
  Developed a database system for handling student enrollments and course registrations

using Java and SQL.
Implemented complex SQL queries for data analysis and reporting.

Certifications

Certified Java Developer - Oracle Corporation, 2022

Awards and Honors

Dean's List - University of California, Berkeley, 2020-2022

Professional Affiliations

Association for Computing Machinery (ACM) - Member since 2020
